Jackets

Regular Block/Fit SB x 2
 This quintessentially English block results in an elegant, tailored (neutral) fit. Good, consistent fit results can be achieved as it is cut to be forgiving with reference to customer vagaries in weight/size (pre & post fitting). The over body allowances are: Chest 4" (10cm), Waist 3½" (8.9cm), Hips 2½" (6.3cm). All the following styles and variants are selectable, however, the lapel width for a SB2 - 40" chest is defaulted to 3½" and the gorge point and sleeve width are regular.

Fitted Block/Fit SB x 2
 A more fitted variant of our regular block creating a slimmer silhouette. This is achieved by a neater over body allowance, more suppression through the chest dart, shallower/higher armholes and the waist height/suppression is raised 1" (2.5cm). The over body allowances are: Chest 3½" (8.9cm), Waist 3" (7.6cm), Hips 2½" (6.3cm). All the following styles and variants are selectable, however, the lapel width for a SB2 - 40" chest is defaulted to 3½" and the gorge point and sleeve width are regular. A request for this block where the chest to waist differential triggers the semi stout or corpulent blocks (see Technical Manual p 24) will automatically be cut on the Regular block/fit.

Slim Block/Fit SB x 2
 A more contemporary, closer fit. This block/fit is a development from the Fitted Block, and includes the higher waist, shallower armholes and greater chest dart suppression. The over body allowances are further reduced: Chest 3¼" (8.25cm), Waist 2" (5cm) and Hips 1½" (3.8cm). There is also a **Very Slim Block/Fit**, this is an ultra fashion fit - use with care, the result is very tight/close. The over body allowances are: Chest 3½" (8cm), Waist 1½" (3.8cm) and Hips 1" (2.5cm). Both these blocks/fits are available with all the following style options. These two blocks/fits come defaulted with a narrower lapel; SB 2 - 40" lapel = 2¾" (7cm) the higher gorge point and a slimmer sleeve. A request for this block where the chest to waist differential triggers the semi stout or corpulent blocks (see Technical Manual p 24) will automatically be cut on the Regular block/fit.

Comfortable Block/Fit SB x 2
 The Comfortable fit is derived from the Regular Block/Fit and eases the fit throughout, particularly straightening/reducing the waist compression. The over body measures increase as follows: Chest 4¼" (10.8cm), Waist 4½" (11.5cm) and Hips 3½" (8.9cm). The resizing is done in such a way as to maintain the balance of the garment. All the following styles and variants are selectable, however, the lapel width for a SB2 - 40" chest is defaulted to 3½" and the gorge point and sleeve width are regular.

Regular fit Top Coat (Covert Coat)

56

Comfortable fit Overcoats

57

✂ SB x 4 Regular coat button front

✂ SB x 3 Regular coat
All regular Top Coat styles available in many other cloths

✂ SB x 4 Regular coat with fly front
A slimmer cut for use over knitwear or a jacket.

This pattern derives from the traditional covert coat (a quintessential English country top coat).

Over-body allowances

Chest	5"	(12.7cm)
Waist	6"	(15.2cm)
Seat	5"	(12.7cm)

*Regular fit Top Coat (Covert Coat) only available in SB styles.

*A default top button position will be calculated according to chest size, height (based on sleeve length) and number of buttons requested. This can be overridden. Be aware that button spacing will remain the same and move in relation to the requested top button position.

✂ Comfortable cut SB x 3 with notch lapels

This pattern originated in the 80's when easy fits were all the rage. It is generously cut with very little natural waisting in the pattern. This garment is ideal for those who want that 'easy look' and want to wear a bulky suit/knit underneath.

Over-body allowances

Chest	6"	(15.2cm)
Waist	7"	(17.7cm)
Seat	6"	(15.2cm)

✂ Comfortable cut SB x 4 peak lapels

✂ Comfortable cut double breasted 3 x 3 peak lapels

✂ SB x 4 Fitted cut with fly front

✂ Fitted cut DB 3 x 3 peak lapels

✂ Fitted cut DB 2 x 3

✂ SB x 4 Fitted cut with button front

✂ Fitted cut DB 3 x 4

✂ Fitted cut DB 2 x 2 with notch lapels

✂ SB x 3 Fitted

This garment is ideal for those who want that 'slim look' and want to wear a light weight suit or a knit underneath.

All fitted Overcoats (SB or DB) have the option of Notch, Peak or Short/Semi Peak lapels.

Over-body allowances

Chest 5" (12.7cm)
 Waist 4½" (11.4cm)
 Seat 4" (10.1cm)

*A default top button position will be calculated according to chest size, height (based on sleeve length) and number of buttons requested. This can be overridden. Be aware that button spacing will remain the same and move in relation to the requested top button position.

Many standard jacket options are available on most styles/cuts of overcoat

✂ Trend coat

This pattern is proving very popular amongst younger/slim fashion conscious gents. It is closely cut and is ideal for those who want that 'super slim look' and want to wear a very slim suit or more likely a knit underneath.

Over-body allowances

- Chest 5" (12.7cm)
- Waist 5" (12.7cm)
- Seat 5" (12.7cm)

✂ Trend coat without hand warmer pockets

✂ Trend coat with loose half belt

✂ Pea coat

This pattern is a classic that has been particularly on trend for the last few years. It has certain positive naval/military associations but when made in solid colours and checks/plaids other than navy it becomes a most flexible and versatile and 'on trend' garment. It is quite closely cut and is ideal for those who want that 'slim look' and want to wear a very slim suit or a knit underneath. Worn as a short coat/car coat.

Over-body allowances

Chest 5" (12.7cm)
 Waist 6" (15.2cm)
 Seat 3" (7.6cm)

Internal pocket options as Classic overcoat. Limited external options

✂ Pea coat plain back

✂ Pea coat sewn on half belt

✂ Field coat with swing sleeves

✂ Field coat with Raglan sleeves and tonal flaps and collar option

✂ Optional action shoulder and optional sewn on half belt

Shirt Front options

74

✂ Placket

✂ Plain

✂ Fly

✂ Opening Button

✂ Popover shirt

Popover: Available in Regular block only. Measurements provided maybe edited/eased to ensure shirt will go/fit over certain shoulder & waist combinations.

Back Pleat & Lower back dart options

75

✂ Plain Back with split Yoke

✂ Plain Back with full Yoke

✂ Box Pleat

✂ Back Dart

✂ Two Knife Pleats

When back darts are requested the total circumference of the shirt is increased by the total depth of the 2 darts combined and then this amount is darted back out of the back panel only, to give a scalloped/ fitted, body hugging look in the back. Simply provide the waist measurement as usual with a request for the relevant dart. Do not make allowances for the dart or the amount will be double counted.

Dart Depth options:

$\frac{3}{8}$ " deep. Reduces back waist by 1 $\frac{1}{2}$ " in total and adds this amount back into the front and sides to maintain the same total circumference.

$\frac{5}{8}$ " deep. Reduces back waist by 2 $\frac{1}{2}$ " in total and adds this amount back into the front and sides to maintain the same total circumference.

Tips:

Provide the same body measure whether with/without darts. Do not add or subtract the dart amount, Lambton will do this.

Even on flat stomachs darts can improve the look and fit of a shirt in a way that close fitting measures on an un-darted shirt cannot achieve.

✂ Scalloped tail (Default)

✂ Straight hem

✂ Low side seam tail

✂ Dress Shirt - pleated
Two depths of pleated
dress front available.
Default 3/8"
Optional 3/4"

✂ Bib Style
